US Hedge 2

Expert advisor (trading robot) · MetaTrader 4 · MQL source code included

About this tool

US Hedge 2 is an expert advisor (trading robot) for MetaTrader 4. It can hold buy and sell positions at the same time (hedging), places pending buy/sell stop or limit orders and trades only in the hours you set (time filter). It has 20 settings, such as Lot size, Take profit and Use take profit. MQL source code included.

It also can size trades from your balance and risk percent and works on several symbols at once.

Files in the download: US-HEDGE.mq4.

Trading robots can lose money. Check every setting and test on a demo account before using real funds.

How to install

1. Download the ZIP from your PolyMaria library and unzip it.
2. In MetaTrader 4 open File -> Open Data Folder, then go to MQL4 -> Experts.
3. Copy the .mq4 file(s) there. Put any .mqh files in MQL4 -> Include.
4. Open the .mq4 file in MetaEditor and press Compile (F7) if MetaTrader does not show it.
5. Drag the expert advisor from the Navigator onto a chart, check the settings, allow Algo/Auto Trading and press OK.
6. Test it first on a demo account or in the Strategy Tester.

Good to know

- Test every expert advisor on a demo account or in the Strategy Tester before trading real money.
- Past results of any tool do not guarantee future results. Trading involves risk.
